

## HELPFUL HINTS – FURNITURE

### **CARE OF YOUR NEW FURNITURE:**

- To prolong the life of your furniture, protect it from the sun with a furniture cover, full mooring cover, or lift canopy when not in use
- Prolonged wet weather – often in the autumn – and lack of use may cause your seats to mildew. We recommend “Bio Kleen Amazing Vinyl Cleaner” and “303 Protectant” to care for your seating products. “Bio Kleen Amazing Vinyl Cleaner” is an excellent cleaner, and several applications of the “303 Protectant” throughout the boating season will help prevent stains from setting
- Harsh cleaning chemicals are not recommended for cleaning your vinyl. Bleach or cleaners with a silicate formula will cause the thread and vinyl to break down and crack
