

HELPFUL HINTS – FURNITURE CARE

- To obtain the longest possible life from your furniture it must be protected from the sun. When not in use, a furniture cover, full mooring cover, or a lift canopy will double the life of your purchase.
- The next great “enemy” of your seating is mildew. Prolonged wet weather with the lack of use is when mildew will get out of hand. This is what usually happens in the fall. “Bio Kleen Amazing Vinyl Cleaner” and “303 Protectant” are highly recommended products that aid you in caring for your seating. Several applications of the 303 Protectant throughout the boating season will help prevent stains from setting.
- Harsh cleaning chemicals are not recommended for cleaning your vinyl. Bleach or cleaners with a silicate formula will cause the thread and vinyl to “breakdown” and crack.
