

Do you want complete coverage or partial shade?

1. To use the Blue Water Top as a canopy to protect your pontoon when not in use.

- a. Measure from the back of the rail to the front of the rail.
- b. Match this measurement to the Blue Water Top that matches.
- c. For any measurement over 6" (Example: 16'7") round up to the nearest size available.
- d. Determine whether your pontoon deck is 8' or 8'6" wide then purchase the appropriate top.

2. To use the Blue Water Top as sun protection only.

- a. Simply measure where you want the top to protect.
- b. Match this measurement to the Blue Water Top that matches.
- c. For any measurement over 6" (Example: 16'7") round up to the nearest size available.
- d. Determine whether your pontoon deck is 8' or 8'6" wide then purchase the appropriate top.
