

FREQUENTLY ASKED QUESTIONS OF CORNER CAPS

Q: Do you carry a corner cap that will fit my specific pontoon?

- All corner caps are after-market, not specific to any one type of pontoon.

Q: Can you look up my pontoon and tell me what corner cap will fit my pontoon?

- We do not have any sort of look up program to be able to tell you which corner cap that you would need or what corner cap fit your pontoon.

Q: How do I go about finding what corner cap fits my pontoon?

- You will need to measure one of your current corner caps, or the corner of your deck and use those measurements to find the one that best matches our measurements.

Q: Where can I find the measurements of your corner caps that you list on your website?

- You can find the measurements for each of our corner caps in the pictures on that specific corner cap you are looking at.

Q: What if I am unable to find one that matches my measurements I have taken?

- If you are unable to find one that matches your measurements, it may be in your best interest to replace both sides (i.e. front/back/ or front & rear on same side). No one can see all 4 corners of the boat at the same time.

Q: If I order one and it doesn't fit can I return the corner cap?

- Yes you can return it, please see our return policy at the bottom of the page under Customer Service.
