

HELPFUL HINTS – HOW TO MEASURE FOR A BLUE WATER TOP

1. How to measure for a complete unit.

- a. Measure from the back of the rail to the front of the rail.
- b. Match this measurement to the Blue Water Top that matches.
- c. For any measurement over 6” (Example: 16’7”) round up to the nearest size available.
- d. Determine whether your pontoon deck is 8’ or 8’6” wide then purchase the appropriate top.

2. How to measure replacement rags.

- a. Determine if your deck is 8’ or 8’6” wide.
- b. Measure length of drop down curtain that is side rail length.
- c. Add 2’(ft) to side rail length, that is your overall length.
